Product Information

Manufacturer: Mach 1 Packaging Ltd.

Model: SONIC HPA

State: New

Type: Turntable

Structure: High Profile

Controls: Automatic

Film Carriage: Powered Pre-Stretch

Mach 1 SONIC HPA Portable Automatic Wrapper

This product meets the demand for a heavy duty, portable, high profile turntable, portable automatic, with pre-stretch, and available options to meet common needs.

> Machine pictured is not exact model described. This model combines the turntable of the SONIC HPX with the automated features of the SONIC LPA.
>
> TIP - Click on picture to see both in the picture gallery.

ADVANTAGES	DISADVANTAGES
• More robust turntable support system • Portable-automatic machine, does not require the active participation of the operator throughout the whole wrap cycle, allowing him/her to work productively elsewhere while the load is wrapped automatically • Remote start options enable the operator to start the wrap cycle without approaching the panel (i.e. fork truck operators do not need to dis-mount) • Automatic cut and seal at end of wrap cycle means load is ready to take away ... no need for fork truck operators to dis-mount • Pre-stretch film carriage maximizes the stretching of the film, significantly reducing the cost of packaging per load • Pre-stretch produces superior shipping package • Full array of available options accommodates needs for over-sized loads and wrap pattern variations • Fork lift portable	• Requires operator to manually load and unload the turntable • Requires pneumatic power (air) • Increased installation costs (professional installation recommended) • Reduced maximum load wrap height capacity (compared to low profile models) • Does not accommodate a loading ramp (i.e. fork truck loading only) • Load supporting turntable has maximum load weight limitations • May not be suitable for unstable loads which cannot accommodate rotation • Turntable load bearing parts require maintenance

Specifications

Performance:

- Rotation Speed: 0-16 RPM
- Loads Per Hour: Up to 40 LPH (Dependant upon wrap pattern selection, loading method, and operator proficiency.)

Load Specifications:

- Maximum Load Size: 50" W 50" (1270 mm) x 50" 50" (1270 mm) L x 80" (2032 mm)H (70" (1778 mm) Load diagonal)
- Maximum Load Weight: 5,000 lbs (2268 kg)

Film Delivery:

- Film Delivery: Mach 1 "X-STRETCH" pre-stretch film carriage
- Pre-stretch: 250% Factory default pre-stretch level (other pre-stretch levels available)
- Post-stretch: Electronic film tension control
- Film Type: Machine film, 20" Roll width, 10" Diameter

Rotation System:

- Turntable Rotation System: Chain driven, 1/2 HP 90 VDC (Raytron DC drive board)
- Turntable Diameter: 48" x 48" octagonal
- Support: PRO-GLIDE turntable support system, four (4) heavy duty turntable support casters

Lift System:

- Film Carriage Lift: Chain driven, 1/2 HP 90 VDC (Raytron DC drive board)

Power Requirements:

- Power Requirement: 120 VAC, 15A, Single Phase, 60 Hz
- Pneumatic Requirement: 80 PSI @ 3 CFM

Controls:

- Controller: DIGI-TECH control unit (Raytron micro-controller)
- Operator Interface: Membrane keypad with digital display
- Wrap Programs: Standard wrap up & down, gentle cycle feature (for light or unstable pallets), reinforce wrap function
- Wrap Parameters: Top wraps (1 to 10), bottom wraps (1 to 10)

Cut and Seal:

- Automatic film clamp, cut, and wipe(?)

Construction:

- Frame: Welded steel
- Portability: Forklift tubes

Manufacturer's New Equipment Parts Warranty:

- Better than industry standard
- 3 years parts
- 5 years workmanship
- Lifetime warranty on pre-stretch rollers

Delivery: Shipping services or factory pick up are available. Production lead times vary according to season, model, and options chosen. Please contact us for details.

Product Options

- Standard equipment options allow you to adapt the machine for oversize and heavier loads.
- Other options allow you to streamline your production process and increase efficiency.
- Custom options and modifications are available to meet specific needs.

> Pricing for options is in CAD or USD.
> Discounts off list pricing shown may be available.

OVERSIZED LOADS

☐ Yes

Mach 1 OVERSIZED LOAD - 92" wrap height; increase maximum capacity from 80" to 92" H (ROCKET HP/HPX, SONIC HPX/HPA)

☐ Yes+ $550.00

Mach 1 OVERSIZED LOAD - 98" wrap height; increase maximum capacity from 80" to 98" H (ROCKET HP/HPX, SONIC HPX/HPA)

☐ Yes+ $750.00

Mach 1 OVERSIZED LOAD - 110" wrap height; increase maximum wrap height capacity from 80" or 86" to 110" H; includes hinged tower; machine ships with tower knocked down and requires some assembly onsite (ROCKET LP/HP, SONIC LPX/LPS/HPX/HPA/LPA)

☐ Yes+ $1,550.00

Mach 1 OVERSIZED LOAD - Custom wrap height; increase or decrease capacity to meet requirement (ROCKET LP/HP, SONIC LPX/LPS/HPX/HPA/LPA) * FACTORY QUOTE REQUIRED *

☐ Yes $0.00

TURNTABLE UPGRADES

☐ Yes

Mach 1 TURNTABLE UPGRADE - 6,000 lbs capacity upgrade (ROCKET H/HP, SONIC LPS/HPX/HPA/LPA)

☐ Yes+ $950.00

Mach 1 TURNTABLE UPGRADE - Severe duty upgrade; includes 3/4 HP turntable motor upgrade and 1/4" thick frame tubes (ROCKET H/HP, SONIC HPX/HPA)

☐ Yes+ $1,550.00

SCALE OPTIONS

☐ Yes

Mach 1 SCALE OPTION - 5,000 lbs built-in scale; integrated into frame; this option raises the wrapper 1.5 inches above floor (ROCKET H/HP, SONIC LPS/HPX/HPA)

☐ Yes+ $3,990.00

Mach 1 SCALE OPTION - 5,000 lbs platform scale 4' X 4'; includes split base; requires tower section to be anchored to the concrete floor (ROCKET H/HP, SONIC HPX)

☐ Yes+ $3,990.00

Mach 1 SCALE OPTION - Printer for scale package; configured to print date, total weight and sequential number on a 4" x 4" self adhesive label [labels not included] (ROCKET H/HP, SONIC LPS/HPX/LPA)

☐ Yes+ $1,095.00

PROCESS IMPROVEMENT OPTIONS

☐ Yes

Mach 1 MISCELLANEOUS OPTION - Height detection photo-eye upgrade for dark or glossy products (ROCKET LP/HP/LPX/HPX, SONIC LPX/LPS/HPX/HPA/LPA/RTX/RTG)

☐ Yes+ $475.00

ENVIRONMENTAL OPTIONS

☐ Yes

Mach 1 MISCELLANEOUS OPTION - Cold pack, above freezing (ROCKET L/H/LP/HP, SONIC LPX/LPS/HPX/LPA)

☐ Yes+ $275.00

Mach 1 MISCELLANEOUS OPTION - Cold pack, below freezing (ROCKET L/H/LP/HP, SONIC LPX/LPS/HPX/LPA) * FACTORY QUOTE REQUIRED *

☐ Yes $0.00

Special requests or requirements:

Choose if selecting options without requiring the base machine.

☐ Yes $0.00

"Portable" Automatic

* All products are designed for operation in a typical warehouse environment (dry, clean, heated).

Options may be available to adapt these machines for operation in other environments (eg. cold, wet, dusty, etc.).

Operation of these machines in conditions for which they were not designed might reduce the life expectancy of the machine and/or negate the warranty.
